Francesco Aguil, an engineer from Macao, was fined \$2 in the Police Court to-day for giving a Chinamau a slap on the face. Defendant endeavoured to excuse himself by saying that he saw the complainant kicking a Portuguese boy.

WE observe that arrangements have been made by the Canton & Macao Steamboat Company for the river-steamers making three departures each day, -8 a.m., noon and 8 p.m .- from Canton and Hongkong on Monday, Tuesday and Wednesday, the 7th, 8th and 9th just., to convey our Jubilea visitors from Canton and the surrounding districts. Provisions having been made for taking the travellers here, we have no doubt arrangements will be made for

taking them back. 1831 As will be seen from an advertisement, the pupils of the Upper Forms of the Public The publication of this issue commenced School will re-seemble on Monday next Fortunately, the sickness has not spread amongst the boarders at Sunnyside, as was feared, and the Head Mester therefore feels justified in continuing the school for the higher-class boys. The younger boys base holidays for a few days longer. The elder boys are; we believe, glad to continue their preparations for the Cambridge local examination to be held on 12th Dec.

> We observe by Le Courrier & Haiphong that a Chinese contractor in Haiphong has undertaken to ship 1,200 Chinese coolies for Panama by the steamers Cachemere of the Companie Nationale de Navigation. The steamer is now in the Bay of Along and already 600 coolies have been gut on board. The Courrier says the men get \$20 on embarking, and during their shree years engagement they receive \$20 a month, with lodging, board, and the skill of a Chinese doctor at their disposal free, the Panama Company, besides, undertaking to send thom home free at the expiry of the three years. No mention is made of free coffins, or of funeral expenses.

WE learn from a Chinese source, usually well informed; that large hands of robbers have made their appearance in the Yau-mati district, doubtless on the way for Hongkong to celebrate the Jubilie in their own peculiar way. In view of the tens of thousands that are flooking here to see the blazing, we doubt very much if the police, even with their hired assistants, will be able to cope with the mob. The difficulty will be greatest on the night of the Ball, when the majority of the European comthe Isles, 27; Bentario, Hector, 30; munity will be away from their residences. A well-organised band gould then, with considerable ease, do a good deal in the way of looting at any points where the force was week. Besides judging from some of the specimens of the extra constable we saw, we should imagine that there was more likelihood of their requiring to be looked ult, was to leave Yokohama on Tues- after themselves than rendering much service in the protection of life and property. The case against the six seamen who were brought before one of the Police Magistrates on Wednesday, charged with deserting from the American ship Courner Goodwin, was to day dismissed. The men, we derstand, have joined their vessel again.

By kind permission of Major Ellis and the Officers of the 2nd Northamptonshire Regiment, the Regimental Band will play the Gardons on Sunday, the 6th lost. from 9 till 10 p.m. The following will be the programme :-

March Joyful Peasant Aria (Euphenium Solo) | Lucia di Lam- Donizetti.

March (Bacred) Prodigal Child Bonnisseni.

Jour Monag, Bandmaster.

A STRIKING example of the potency with which the gambling spirit reigns in the native bosom was afforded in a case before Mr Mitchell-Innes, in the Police Court to-day. Mr Eca de Silva broker. charged a coolie named Tong Achai with the largeny of 810. The complainant stated that he had taken the defendant on trial for a month as cook, and though he was dressed in full out-door had agreed to pay him \$7. Yesterday he conthing. On comparing life-belts made gave the defendant a \$10 bill to purchase some angar. When he returned, a consi- lighter than the latter, a very important derable time afterwards, he said he had advantage to an exhausted drowning person gambled away all the money with the ex- Herr M eller's assertion that raindeer hair ception of one dollar, which he had used to is capable of supporting a weight ten times the defendant was handed a dollar to buy provisions with, and returned without are a ft and pliable, and that they import the provisions or the c dollar, confessing that he had again, been indulging in unsuccessful play. Whother the second fault was an attempt to recover what had been lost by the first was not explained; but at all events, it was too much for the hard labour.

THE London correspondent of the Irish Times cays :- There is no truth in the story that the Times and a seyndicate of lords associated with it in the endeavour to secure criminatory correspondence between the arch-invincibles and the leaders of the National League have been befooled by two of the agents employed, Moser and Williams. On the contrary, they have se--cured a valuable consideration for the morey spent upon their expedition, which I hear has cost over 3,000 of which twothirds has come out of the exchequer of Printing Horse Square, and a third out of the pockets of half a dozen great noblemon who joined in the enterprise suggested by one of their number, a peer of ducal rank.

THE FEVER EPIDEMIC IN LONDON: - Sanitary science has also attracted much attention at home, both through the sitting of the Sanitary Institute in the North and the increasing prevalence of scarlet fever in London. This disease has rapidly assumed the proportion of an epidemic. All the London fever hospitals are full to over-flowing, cases increase in number, and no diminution in the virulence of the disease is expected till the cold season. Yet, bad as it is, the scarlet fever might be far worse. It is not of a malignant type; deaths are not numerous, thanks to the extreme care devoted to the patients attacked. Nothing can well be more perfect than the arrangements for dealing with infectious fevers in London. There is plenty of hospital accommodation, although unusual demands and the most stringent procantions prevail

THE H GIENTO CONGRESS AT VIERNA. - The ting at Vienna, will probably do more per- agent d'affaires, insured his life with several science from all parts of the world. The fever is now proved to be entirely depen- timet, a political friend and ally, and Herr Pettenkofer paid a noble tribute country at Meudon, near Paris. He to the marked attention paid in England | claimed to have discovered an infallible cleanliness had given London the lowest Martinet recommend a patient in the last by the disease. Whatever we may be mistress changed their names to De Salis, our chargo.

THE PROGRESS OF STORTHAND .- The present season of congresses has seen one of the most unusual-that of the short-hand writers, who have just met in London under the presidency of Lord Rosebery. Stenegraphy claims to be an ancient graft, but its uses can never be said to have been fully appreciated till the system of Mr. Pitman—that chiefly in use—was devised and widely distributed. The shorthand manuals of Mr Pithan, who was present at the congress, probably have had the largest sale of any bunks printed, except the Bible, and he may fairly call himself the father of the millions of stemographers who nowadays growd the calling. At present there may be too many of them, but the shorthand writer is certain to be more and more largely in request as time goes on. He might be much more utilised in economising time and offert, not alone by business men of mit kinds, but by private persons and latterateurs. Strange to say, he has not yet been dumesticated in eur public departments, almongh the general employment of shortrand would allow of an immediate reduction in the number of highly paid sterks. But the golden age of shorthand will only have arrived when all writers alike use some form of abbreviation for their daily contine.

Tith Penang Gazette says :- It is with much regrat that we announce a serious acciden that occurred to Mr Walter Everton, Second Magistrate, Penang, at Province Wellesley, on Sunday last (23rd Oct). It appears that Mr Egerton, in company with Mr Pinckney, was out shooting on the day in question. By some means or other, not yet explained a buffalo charged Mr Egerton, one hern of the animal penetrating Mr Egerton's thigh near the groin. Mr Egerton is very serionely hart, but it is hoped that he will soon recover from the severe injuries he has received. Later news states that Mr Egerton was much better.

A NEW LIFE BAVING APPARATUR - Wo observe in Iron the result of some further experiments with Herr W. C. Moeller's reindeer hair life-saving apparatus. The first life-saving object tied was one which can be used on board ship as a chair, bedstend. or couch, but which in case of need may be converted into a small boat. This apparatus was found capable of supporting three fullgrown men in the water, although only intended to bear two. Another object tried was a suit made entirely of reindeer bair, and covering the entirely body except the face, and in which a man floated on the water without having to make the slightest movement. It was found perfectly impossible to dive in the dress. The third object tried was a door made of reindeer hair, and this supported a min easily, alof reindoor hair with similar ones of cork it was found that the former were much when he has to put it on in the water. jackets, belts. &c., made of reindeer hair a good deal of warmth.

The Overland China Mail.

IS PUBLISHED to suit the Departure of each English and French Mail Steamer for Europe. Formerly the Overland issue was published fortnightly; but us it was deemed of special importance that a weekly budget of news should be propared, it was decided to issue it weekly. Subscribers at Home, and those at the Coast Tea, Silk and Valuables for Europe embarking at San Francisco for China or Ports and in the interior, who find the paper for their perusal, will welcome the change. The Overland China Mail, now a weekly compendium of news from the Far East, contains special Commercial intelligence, special tables of Shipping, and other information. The various Reports of Courts

and Meetings, and all other news, are given in full as they appear in the Daily issue. The attention of Advertisers is directed to a weekly newspaper, which is circulated among old China 'hands' and others, both at home and in the Far East, who do not take the daily journals. The Overland China Mail will be regularly

posted from the China Mail Office to subscribers, on their addresses being forwarded SUBSCRIPTION: Per Annum, - - - \$12.00, postage, - \$1.00

> THE CHINESE MAIL THIS paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Ten Dollars Forty Cents in cluding postage to Coast ports. It is the first Chinese Newspaper ever isrued under murely native direction. The chief support of the paper is of course derived from the native community. amongst whom also are to be found the

quarantors and securities necessary to place it on a business and legal footing. The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Panang, Saigon, and other places frequented by the Chinese, consider themselves justified in guaranteeing a large and ever-increasing circulation. The advantages offered to ad-14 vertisers are therefore unusually great, and

the foreign community generally will find

it to their interest to avail themselves of

them. The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest. while on the other it deserves every aid that can be given to it by foreigners. Lake English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements. Subscription orders for the above may be
